

Dear Customer

Subject: Notice in Use of our Course Recorder Chart Paper

Thank you very much for choosing our products.

There have been some cases that Tokyo Keiki's course recorders (CR-1/2/3/4, DCR-10/20/30/40) were experiencing printing problems due to the use of un-official chart paper. The problem includes chart paper miss-feed, jamming and improper printing.

We use our course recorder chart paper and properly adjust the chart feed mechanism to inspect our course recorders. The above case may cause a slight difference of the recorder chart paper thickness.

In this sense, we recommend to our customers to use our (TOKYO KEIKI) recorder chart paper to enable stable recording.

Please note that un-official chart paper closely resembles the paper authorized by Tokyo Keiki and it is difficult to distinguish the un-official type from the official type. Therefore we have decided to attach the official product identifier to the authorized Tokyo Keiki course recorder chart paper boxes. The official Tokyo Keiki recording chart paper has a "JSMEA Genuine Product Label" of the Japan Marine Equipment Association from August, 2011. With the use of this label, it is easier to distinguish the un-official type from the official type.

When chart jam problem occurs on Tokyo Keiki's course recorder, we highly appreciate it if you could check whether the "JSMEA genuine label" is attached on the used chart paper box.

[Our recorder chart part No.] CR-1 / CR-2 / CR-3 / CR-4 ; 12010357-
DCR-10/DCR-20/DCR-30/DCR-40 ; 12010331-

Our Course Recorder Chart Paper Box Attached "JSMEA Genuine Product Label"

Yours Sincerely;
