

Date: September 18,2012

Dear Valued Customers,

**Notice: Announcement of TOKYO KEIKI ECDIS Type Specific Training**

Thank you very much for continued cooperation and support for our products.

From July 2012, Electronic Chart Display and Information Systems (ECDIS) have become mandatory for ocean going vessels. If a vessel is found non-compliant with regards to ECDIS use, the vessel will be prevented from voyage by port authority control. In addition, the amendment to the STCW Convention regarding ECDIS from June 2012 sets forth responsibility to the ship owner to ensure that the navigation officers of the vessel has certification for the duties performed with the ECDIS on board the vessel. To acquire such certification, the crew must undertake the IMO approved ECDIS training course (IMO Model Course 1.27).

10 engineers from Tokyo Keiki were approved as ECDIS Trainers by Class NK in December of 2011. At the same time, Tokyo Keiki Type Specific ECDIS Training Course was also approved enabling Tokyo Keiki to provide a high-quality training program and issue Class NK approved certificates for each trainee who completes the course.

Currently Type Specific Training is available at Tokyo Keiki Inc headquartered in Tokyo and several foreign locations. We will continuously open new Type Specific Training Centers in order to support your safe navigation.

# **TOKYO KEIKI** *Type Specific Training Locations*

## Japan

### **TOKYO KEIKI** *Tokyo Keiki Inc.*

#### Address

2-16-46,Minami-Kamata,Ohta-ku,
